1. Introduction

BarneyD (\$BND) is a parody memetoken inspired by 90's mascots, designed with humor, community engagement, and modern crypto mechanics.

The Project emphasizes fairness, transparency, and Security to build trust and long-term value.

2. Vision & Mission

- **Vision:** To create the most fun, meme-powered dinosaur in crypto
- **Mission:** Build a strong community, reward holders, and ensure long-term sustainability through transparent tokenomics and verifiable locks.

3. Token Overview

- **Name:** BarneyD
- **Symbol:** BND
- **Total Supply:** 100,000,000,000 BND • **Blockchain:** Kasplex
- **Contract Address:**
0x7596533a8978ff98Ad30524DF29b0102bDc4d90F
- **Owner Address:**
0x2d6725d891c5c94074d6236680d5049F0e66F6C3
80% locked & renounced after launch
- **Treasury Address:**
0x708d1C7272f713B8f82414522278aB8f11CA15D6
80% locked & renounced after launch
- **DEV Address:** 0xCE278c20620AFE128c6f2E0A71D037e2c887B06
80% locked & renounced after launch

4. Tokenomics

Allocation	%	Amount (BND)	Details
Burn	30%	30,000,000,000	Burned at launch
Liquidity Pool	60%	60,000,000,000	LP locked 100% for 24 months
Dev Team	5%	5,000,000,000	80% locked for 12 months, 20% liquid
Treasury	5%	5,000,000,000	80% locked for 12 months 20% liquid

5. Burn

- **Initial Burn:** 30,000,000,000 BND (30%) immediately sent to the Dead Wallet at launch.
- **0x00**
This ensures scarcity and deflationary pressure from the start.

6. Liquidity & Locks

- **Liquidity Pool (LP):** 60,000,000,000 BND paired with KAS.
- **Liquidity Lock:** 100% of the LP will be locked for 24 months.
- **Dev Lock:** 4,000,000,000 BND (80% of allocation) locked for 12 months.
- **Treasury Lock:** 4,000,000,000 BND (80% of Treasury allocation) locked for 12 months.

7. Security & Ownership

- **Owner Wallet:** Only required for contract deployment.
- **Admin Functions:** Minimal and secured (trading activation).
- **Ownership Renouncement:** Owner rights will be renounced after deployment for full decentralization.
- **Tangem Wallets:** Used for storage, providing hardware-level security and multi-sig-like safety.

8. Roadmap

Phase 1 –Foundation

- Website & Whitepaper release
- Contract and Timelock Tests
- Smart contract deployment on Kasplex
- Building a Strong Community
- Initial Burn (30M BND) for scarcity
- Liquidity Pool setup (Seaswap, ZealousSwap)
